Collaboration & Funding Opportunities

Presented by

Tracy Allan Shahan, Ph.D., MBA

Chief, Program Management and Operations Branch

Division of Extramural Activities

National Institute of Allergy and Infectious Diseases

National Institutes of Health

Department of Health and Human Services

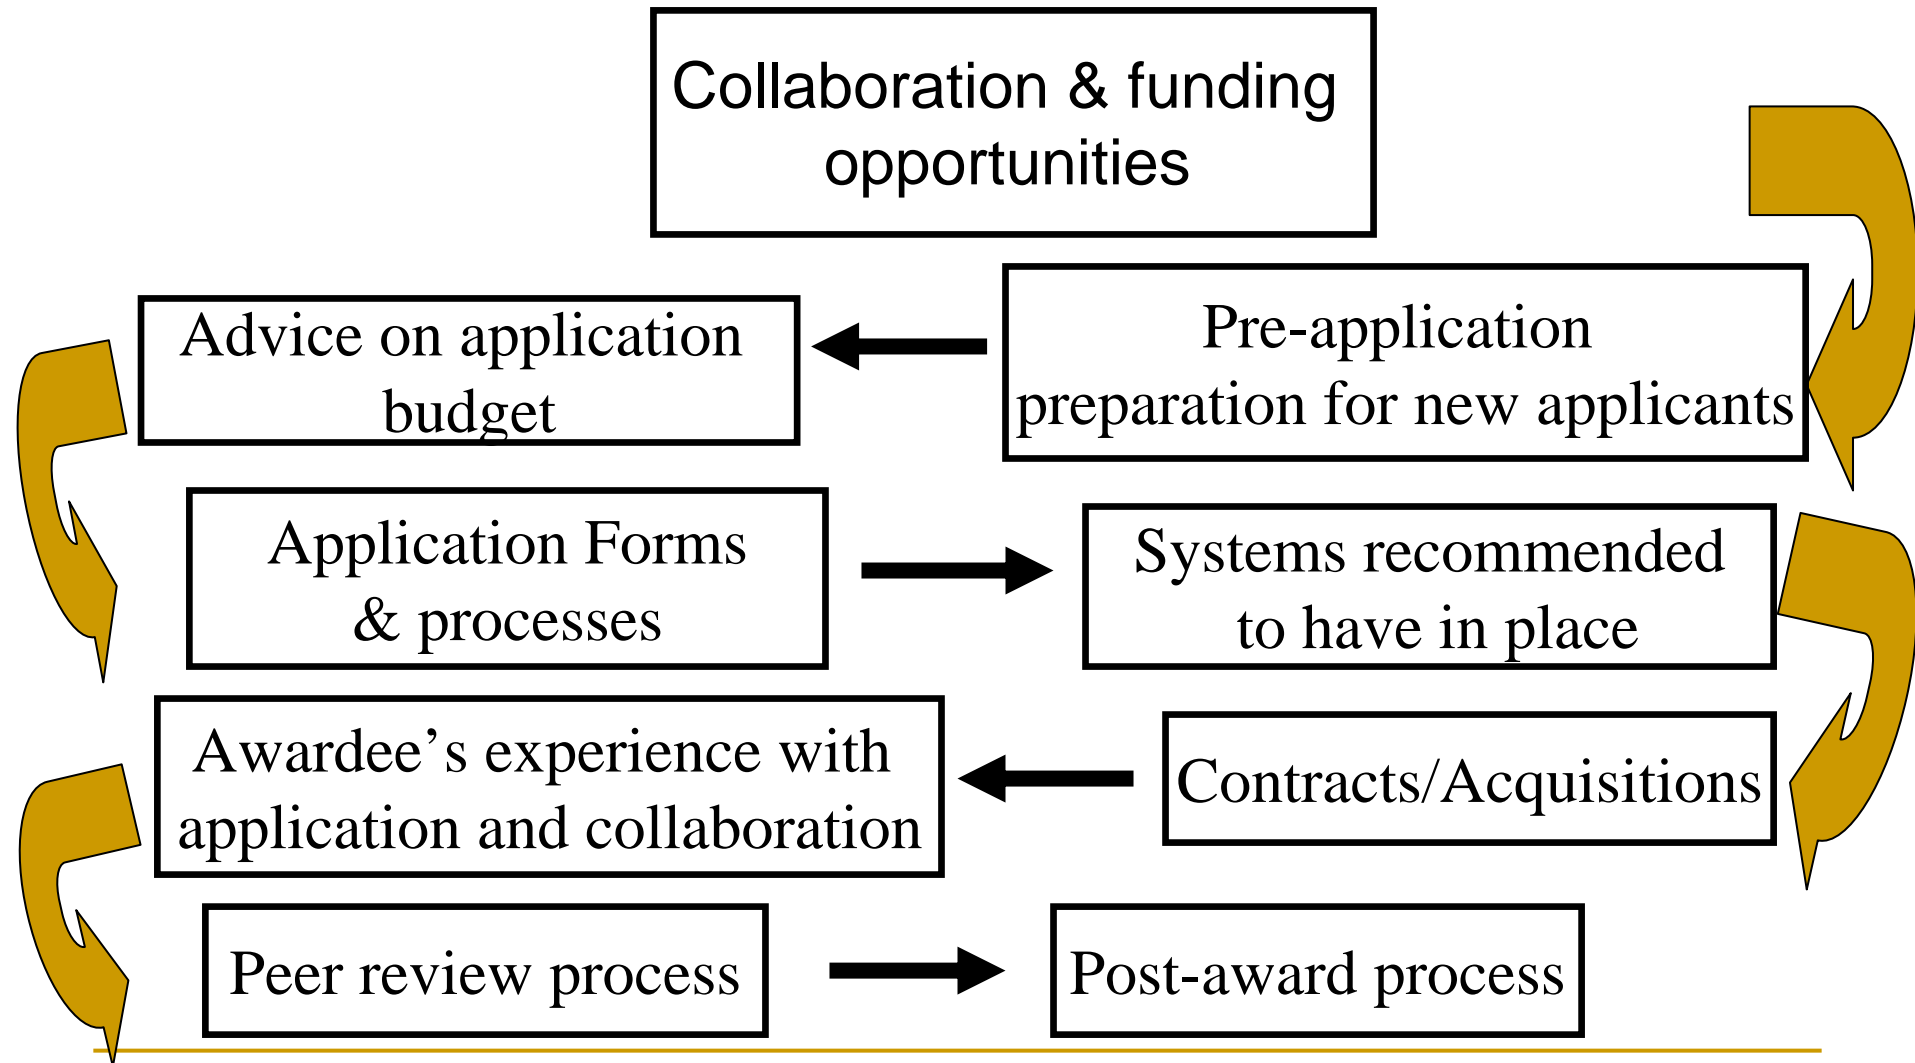

NIAID Symposium

Purpose

- To provide information on funding and collaboration opportunities at the NIAID and NIH
- To assist researchers in better understanding NIH policies and the peer review process
- To provide guidelines toward submitting a successful application

Session Overview

About NIH Funding Opportunities

- Mission of the NIH
- NIH's mission accomplishment
- NIH's Institutes and Centers (ICs)
- Funding instruments and mechanisms
- Funding opportunities

Mission of the NIH

To support biomedical and behavioral research for the public good.

How NIH Accomplishes Its Mission

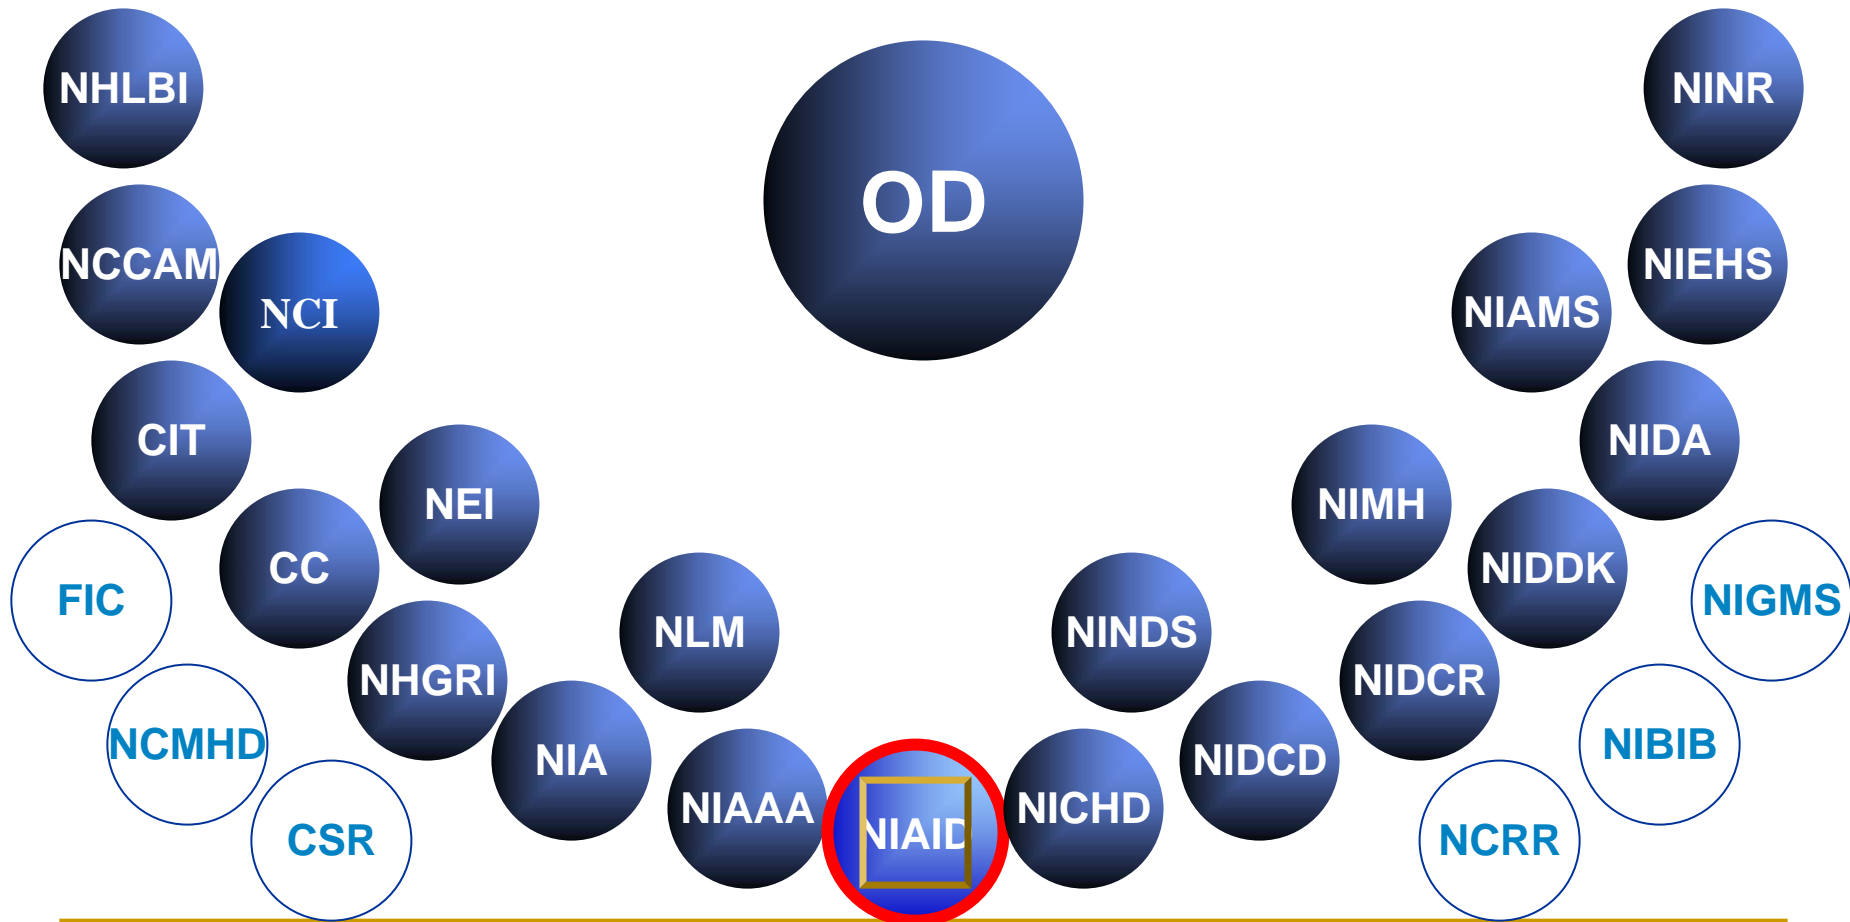

■ **Intramural research activities**

- support and conduct both basic and applied behavioral and biomedical research in NIH's own facilities

■ **Extramural research activities**

- support or acquire scientific investigations and developmental efforts performed by other organizations through assistance and acquisition

NIH Consists of 27 Institutes and Centers

National Institute of Allergy and Infectious Diseases (NIAID) - Est. 1948

NIAID research strives to understand, treat, and ultimately prevent infectious, immunologic, and allergic diseases that threaten millions of human lives.

Funding Instruments For NIAID Extramural Research Activities

- Grants
- Cooperative agreements
- Contracts

Grants		Cooperative Agreements	Contracts
Financial assistance		Financial assistance	Acquisition of goods or services
Investigator initiative	Funding Institute initiative	Funding Institute initiative	Government initiative
Application is tailored by investigator's area of expertise	Applications respond to PAs,	Applications respond to RFAs	Applications respond to RFPs
Unsolicitation	Solicitation	Solicitation	Solicitation
Investigators are responsible for developing the concepts, methods, and approach for a research project		Both the awarding unit and the recipient have substantial responsibility	The federal awarding unit is responsible for establishing the detailed requirements
Awarding unit is a patron		Awarding unit is a partner	Awarding unit is a purchaser

[PAs](http://grants.nih.gov/grants/guide/search_results.htm?year=active&scope=pa) http://grants.nih.gov/grants/guide/search_results.htm?year=active&scope=pa

[RFAs](http://grants.nih.gov/grants/guide/search_results.htm?year=active&scope=rfa) http://grants.nih.gov/grants/guide/search_results.htm?year=active&scope=rfa

NIAID Funding Mechanisms

<http://www.niaid.nih.gov/ncn/grants/mechan.htm>

Note: Different ICs may have different specific purposes for the certain funding mechanism. Be sure to consult the funding IC you plan to apply.

NIAID Funding Mechanisms For Grants

- R series research project grants – single project grants
 - R01 – Traditional Grants -provide support to an institution (domestic or foreign)
 - R03 – Small Grants
 - R21 – Exploratory/Developmental Grants
- P series grants – multiple projects
 - P01s – Program Project

NIAID Funding Mechanisms For Cooperative Agreement Grants

- U series
 - U01 – research project--single project
 - U19 – research program--multiple project
 - U56 – Exploratory Grants Cooperative Agreements
 - UC1 – challenge grants and partnerships program
- P series grants – multiple projects
 - P01s – Program Project

NIAID Funding Mechanisms For Contracts

- N series
 - N01 – research and development contracts
 - N02 – resource and support contracts

Look For Funding Opportunities

- Federal-wide funding opportunities
<http://www.grants.gov/>
- NIH-wide funding opportunities
<http://grants.nih.gov/grants/guide/index.html>
- NIAID-only funding opportunities
<http://www.niaid.nih.gov/ncn/budget/opps.htm>
- Federal Business Opportunities
<http://www2.fbo.gov/index.html>
- NIAID concepts for initiative
<http://www.niaid.nih.gov/ncn/budget/in-main.htm>
- Other public search engines for funding opportunities, i.e. Google, Yahoo
